PAMPHLET

DEFINITIONS

Notes:

HURRICANE: A tropical cyclone with winds of 74 mph and greater, and is usually accompanied by rain, thunder, lightning, storm surges, floods, and sometimes moves into temperate latitudes.

HURRICANE WINDS: Winds which can exceed 155 mph and severely effect areas hundreds of miles inland.

STORM SURGE: Is an abnormal increase in the ocean's level, sometimes in excess of several meters high and miles wide. A surge can come up to five hours before the storm and destroy low-elevation coastal areas. Storm surges are especially damaging during high tide and responsible for most hurricane deaths.

LANDFALL: The term used to indicate the moment the eye of a hurricane hits land.

HURRICANE CATEGORIES

CATEGORY 1: 75-95 mph
Surge 4-6 ft

CATEGORY 2: 96-110 mph
Surge 7-8 ft

CATEGORY 3: 111-130 mph
Surge 9-12 ft

CATEGORY 4: 131-155 mph
Surge 13-18 ft

CATEGORY 5: 155+ mph
Surge 18+ ft

Notes:

HURRICANE CONDITIONS OF READINESS

5 - Hurricane Season: 1 June-30 Nov.

4 - Destructive winds within 72 hours

3 - Destructive winds within 48 hours

2 - Destructive winds within 24 hours

1 - Destructive winds within 12 hours

10 STEP SURVIVAL PLAN

1. Decide where you will go.
2. Learn the evac routes and procedures
3. Prepare a survival kit
4. Plan for special needs for family members
5. Make provisions for animals
6. Prepare important documents and memorabilia
7. Keep adequate insurance and property inventories
8. Protect your home and property
9. Plan for family notification and communication
10. Review evac financial plan

SURVIVAL KIT

Notes:

- Water at least two quarts daily per person for 3 - 7 days
- Food at least enough for 3 - 7 days
- Non-perishable packaged or canned food/juices
- For small children food, bottles, diapers, medications, ect.
- Snack foods
- Non-electric can opener
- Blankets/pillows, ect.
- Clothing seasonal, rain gear, sturdy shoes
- First aid kit/medicines/prescription drugs
- Toiletries/hygiene items/moisture wipes
- Flashlight/batteries
- Radio
- Cash banks and automated teller machines may not be open
- Keys
- Important documents marriage licenses, insurance, medical records, bank account numbers, social security cards, ect.
- Tools
- For pets food/carrier or cage/leash
- Maps
- Trash bags
- Ice chest
- Empty Gas Can

Prices and Conditions as of 10 April 2006

PHASE III CONTRA FLOW INSTRUCTIONS (cont.)

New Orleans Contra Flow Map

For related questions or comments please contact:

Mark Smith (225) 925-7427

marksmith@ohsep.louisiana.gov

I-10 West Contra flow Lanes

The eastbound and westbound lanes of I-10 from Clearview Parkway in Metairie to I-55 North in LaPlace will be used as westbound lanes. On the Contra flow Plan, the normal westbound lanes are shown with BROWN arrows and the Contra flow (eastbound) lanes are shown with BLUE arrows.

All I-10 West entrances through New Orleans, Metairie and Kenner will be used in their normal manner to gain access to I-10 West.

I-55 North Contra flow Lanes

The northbound and southbound lanes of I-55 from I-12 in Hammond to the Mississippi state line will be used as northbound lanes. On the Contra flow Plan, the normal northbound lanes are shown with RED arrows and the Contra flow (southbound) lanes are shown with BROWN arrows.

Traffic traveling I-55 North (BROWN) will be diverted onto I-55 North Contraflow and will only be allowed to exit at two locations: Exit 47 (LA-16) in Amite and Exit 61 (LA-38) in Kentwood.

I-59 North Contra flow Lanes

The northbound and southbound lanes of I-59, north of the I-10/I-12/I-59 interchange, will be used as northbound lanes. On the Contra flow Plan, the normal northbound lanes are shown with PURPLE arrows and the Contra flow (southbound) lanes are shown with GREEN arrows.

Study this map and CHOOSE YOUR ROUTE WISELY. There will be many restrictions on the Interstate system. Upon entering the contraflow area, it may not be possible to change routes. Contraflow operations will begin when evacuations are initiated in Jefferson and Orleans parishes. If you do not wish to evacuate under the contraflow restrictions, your best strategy is to LEAVE EARLY before contraflow is activated.

New Orleans Contra Flow Map

For related questions or comments please contact:

Mark Smith (225) 925-7427

marksmith@ohsep.louisiana.gov

I-10 West Contra flow Lanes

The eastbound and westbound lanes of I-10 from Clearview Parkway in Metairie to I-55 North in LaPlace will be used as westbound lanes. On the Contra flow Plan, the normal westbound lanes are shown with BROWN arrows and the Contra flow (eastbound) lanes are shown with BLUE arrows.

All I-10 West entrances through New Orleans, Metairie and Kenner will be used in their normal manner to gain access to I-10 West.

I-55 North Contra flow Lanes

The northbound and southbound lanes of I-55 from I-12 in Hammond to the Mississippi state line will be used as northbound lanes. On the Contra flow Plan, the normal northbound lanes are shown with RED arrows and the Contra flow (southbound) lanes are shown with BROWN arrows.

Traffic traveling I-55 North (BROWN) will be diverted onto I-55 North Contraflow and will only be allowed to exit at two locations: Exit 47 (LA-16) in Amite and Exit 61 (LA-38) in Kentwood.

I-59 North Contra flow Lanes

The northbound and southbound lanes of I-59, north of the I-10/I-12/I-59 interchange, will be used as northbound lanes. On the Contra flow Plan, the normal northbound lanes are shown with PURPLE arrows and the Contra flow (southbound) lanes are shown with GREEN arrows.

BROWN Arrows (I-10/I-55 North to Hammond and Mississippi)

In LaPlace, the I-10 West (BROWN) lanes will be diverted to I-55 North toward Hammond and Mississippi. Traffic will not be allowed to continue on I-10 West at this interchange.

All traffic traveling on I-55 North will travel in the existing northbound lanes.

When traffic traveling on I-55 North reaches the I-55/I-12 interchange in Hammond, I-55 will begin to Contraflow (both the north and south lanes will travel north into Mississippi).
